IN SITU MODULAR SOFA—ORDER GUIDE

A grand modular sofa that can be tailored to your exact needs with its modular elements hidden through the subtle detailing of the frame's front profile, paired with deep comfort and a soft seat.

With the In Situ Modular Sofa, you can choose between any of the 30 predesigned configurations on the following pages or create your own configuration, following the guidelines below.

Create your own In Situ Configuration

1. SEATING MODULES

Find the seating modules of your desired configuration and add the item numbers of the desired textile separately to your order.

You can only connect modules to the open sides and end of the modules, illustrated here with dotted lines. An In Situ configuration must always have one of the following seating modules at each end: Armrest Module (A80, B80, H98 or I98), Ottoman Module (D80) or Open-Ended Module (F98 or G98).

The Ottoman Module (D80) can only be used in extension of Open-Ended Modules (F98 or G98) or as the only free-standing I-Seater configuration possible to build.

2. FRAME SECTIONS

Choose the frame section(s) that match the seating modules of the desired configuration (10 frame sections to choose from in total). We recommend using as few frame sections as possible when creating your own configuration for a clean appearance. A Frame Corner Section must always be supported by sections in the two open directions. A configuration with chaise longue modules H98 or I98 must be created using at least 2 sections in total.

3. LINKING BRACKETS

Identify the amount of linking brackets required to connect the modules in your configuration, following the guidelines below. **Linking brackets must always be used when joining together frame sections.** Linking brackets must always be mounted on the adjacent sections that face the corner section.

4. CUSHIONS

Specify optional cushions in the desired textile for added comfort and a lounging expression.

The order is not binding upon Muuto unless and until Muuto has issued a written order confirmation to the buyer. Unless objections are made within 24 hours after receipt, the order confirmation is considered accepted by the buyer. For customers on prepayment terms Muuto will start production of made-to-order products immediately when prepayment has been received.

DELIVERY

Unless otherwise agreed in writing, delivery shall be ex. works (Incoterms 2010) from the place designated by Muuto from time to time. If transportation of the products is handled by Muuto's forwarding agent on behalf of the buyer, Muuto will invoice the freight to the buyer. The products shall be sent using standard packaging. The confirmed delivery date is only an estimated delivery date and the time of delivery shall not be considered of essence. Muuto cannot be held liable for any damage or loss that the buyer may suffer as a result of a delay or a non-delivery. If no specific delivery date has been indicated in the order confirmation, Muuto, acting reasonably, is entitled to stipulate a delivery date taking into consideration the quantity and the nature of the products to be delivered.

The buyer is always obliged to inspect the products delivered upon receipt, i.e. checking that the correct type of products has been delivered, and checking that the correct quantity of the products has been delivered.
